Pandit Madan Mohan Malaviya National Mission for Teacher and Teaching ***PMMMMNTT***

The PMMMMNTT is a Central Sector Scheme with All-India coverage. The Mission will focus in a holistic manner dealing with the whole sector of education without fragmenting the programmes based on levels and sectors as school, higher, technical etc. One of the important goals of the Mission is to empower teachers and faculty during through training, re-training, refresher and orientation programmes in generic skills, pedagogic skills, discipline specific content upgradation, ICT and technology enabled training and other appropriate interventions.

The Department of Educational Technology, SNDTWU was awarded Teaching Learning Centre (TLC) under the PMMMMNTT in December 2017.

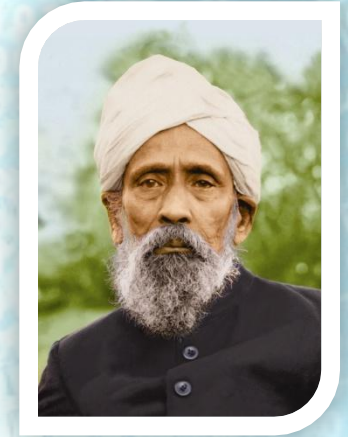

SNDT Women's University

SNDT Women's University is a 102-year-old women's university established by the well-known social reformer, Bharatratna Maharshi Dhondo Keshav Karve.

In a century of its existence, its enrolment has increased from 5 women who graduated in the first batch to more than 50000 women students who are enrolled in over 175 affiliated colleges in 7 states of India, 41 postgraduate departments, 11 institutions conducted by the university and 2 centres in its three campuses.

The university is accredited with Grade A by NAAC in 2016.

Presently the university offers 45 UG, 50 PG, 51 M.Phil./ Ph.D., 22 PG Diploma and 15 Diploma programmes.

Department of Educational Technology

The department was established with substantial financial support from the UGC in the year 1973. The DET offers a Master programme (MA/M.Sc. eLearning), as well as Ph.D. Programme in Educational Technology. It also offers 4-credit Online Courses in Instructional Design, Research Methodology, etc.

Apart from offering the programmes, the DET conducts research, undertakes development activities. The department has so far developed eContent of about 600 learning hours in collaboration with Maharashtra Knowledge Corporation Ltd. (MKCL), Community Aided Sponsorship Programme (CASP, an International NGO), Central Institute of Educational Technology (CIET-NCERT), State Institute of Educational Technology (SIET), Maharashtra, MHRD, UGC, etc.

The department is actively involved in training of faculty in higher education for more than two decades.

MOOC (Massive Open Online Course)

The Open and Distance learning (ODL) movement started in India by establishing an Open University in Andhra Pradesh (APOU) in 1982 followed by Indira Gandhi National Open University (IGNOU) in 1985. This ODL movement was restricted to use of mass media like Print, TV, Radio and then two way satellite TV. With the advent of digital technology, there was a big push to the ODL in the form of Online Learning. Many universities across the world started offering Online courses. It was followed by the movement of Open Education. Open Education Resources were developed in a big way and made available to anyone desirous of using those. The year 2008 brought a big change called the Massive Open Online Courses (MOOC). MOOCs use Social Media, and interconnectivity for learning through connectedness. Several platforms have been introduced since 2012 and are being used to deliver MOOCs in various subjects. MHRD has designed and created SWAYAM (Study Webs of Active–Learning for Young Aspiring Minds) Portal for hosting and offering more than 1500 MOOCs.

MOOCs are courses which can register Massive number of learners, are free, Open and are fully Online. "Connectivism and Connective Knowledge" was the first MOOC designed, conducted and led by George Siemens and Stephen Downes in 2008. Many more Open Learning experts came forward to offer MOOCs thereafter. MOOCs were offered through platforms such as EdX, Coursera, etc. Experts started offering MOOCs which were structured, planned and offered following a strict defined process. It is challenging to offer an online course to hundreds, thousands of learners at a time, but It is made possible with the use of ICT, Social media, connectivity and continuous access to internet. MOOCs have the potential to achieve globalisation and overcome geographical as well as academic boundaries.

Workshop Objectives

After the workshop, the participants will be able to –

- Define MOOC
- Discuss evolution of the concept of MOOC
- Compare various types of MOOCs on their characteristic features
- Analyse features of MOOC platforms
- Identify stages of MOOC development

Workshop Methodology

This workshop will be conducted in Online Mode. Resources and activities will be available on Learning Management System. Virtual classroom sessions of 90 minutes each will be planned thrice a week for which logging in from your own system will be required. Virtual classroom sessions are generally scheduled at 2:30 PM. Online activities and assignment submissions will be scheduled for everyday, which can be done at your own convenience of time, even at night or early morning. Maintaining day-to-day deadlines of all online activities is a mandatory requirement for certification.

Who can participate?

- ❖ Faculty Members from any faculty discipline working in Indian Higher Education institutions, i.e. from recognised Colleges and Universities are eligible.
- ❖ Minimum one year of experience of teaching in higher education system is mandatory for the participation.

Letter from the head of the institute confirming about 'No Objection' from the head of the institute, current job profile and teaching experience in higher education will be mandatory.

Workshop Registration

Registration:

Please use the following link for application. Please copy and paste this link in browser. Submitting this form does not guarantee registration till you receive confirmation of admission to the workshop. The TLC, DET-SNDTWU reserves all rights of selection.
