Engaging Learners Online

(Online Mode)

With the ongoing second wave of the pandemic, academicians continue to look for various ICT-based tools to deal with the various processes associated with teaching-learning. Online Learning is one of the effective ways for providing quality education over the internet, wherever possible.

Certain ICT tools that are available freely on the internet support instructors to increase learner-engagement, learner-collaboration and learner-motivation. They can use these tools for both content management and assessment in both synchronous and asynchronous modes, in some cases also use in a flipped classroom setting. These web-based platforms help learners visualise, collate, organise and share content.

This online workshop will help us explore ways to integrate ICT tools in the teaching-learning process.

Workshop Objectives

After the workshop, the participants will...

- ✓ Plan activities to make video-based learning interactive
- ✓ Design flowcharts, mindmaps, graphic organisers
- ✓ Create learning boards with multimedia objects and presentations
- ✓ Use these tools for collaborative work among learners

Workshop Modality

- ✓ GMeet platform will be used to conduct the workshop.
- ✓ Synchronous Online sessions will be conducted from 2:30 to 5:30 PM
- ✓ Handouts will be provided for practice and completion of assignments.
- ✓ WhatsApp/Telegram Group will be created for troubleshooting and query-solving
- ✓ Active participation in the Three-day workshop will be considered for certification.

Who can participate?

- ✓ Faculty Members from any faculty discipline currently working full-time in higher education institutions are eligible
- ✓ Possessing desktop or laptop with good internet connectivity at home
- ✓ Only those who are willing to login from 2:30 to 5:30 PM and work at least for one additional hour to practice may register.

National Level Student-Led Workshop

Organised and conducted by

Final Year students of Masters programme in eLearning

Department of Educational Technology

Workshop Contents

Day 1 Building exercises within videos

- Creation of formative assessments using Spiral.ac
- Review, assess, grade, give feedback on activities

Day 2 Interactive Videos

- Creation of Interactive online videos for assessment using Edpuzzle

Day 3 Visual information platform

- Creation of collaborative boards and multimedia presentation on Webjets

Resource Persons

Ms. Rishika Chatterjee

Ms. Samiksha Desai

Ms. Nidhi Shetty

Workshop Organising Committee:

Dr. Jayashree Shinde, Director, Teaching-Learning Centre

Dr. Madhavi Dharankar, Head, Department of Educational Technology

Ms. Devyani Bijoor, Research Assistant, Teaching-Learning Centre
